## 8

### General information

#### **Tariffs**

*Compensation is due for the use of frequencies. The compensation that the Radiocommunications Agency charges for the performance of its tasks is laid down in the "Regeling vergoedingen Agentschap Telecom". For information over tariffs, see [www.agentschaptelecom.nl](http://www.agentschaptelecom.nl).*

#### **Representation by third parties**

*If the handling of your interests is done via another legal entity, then you should provide an authorization in a separate enclosure by the application/modification of the license. Specify for which aspects the legal entity is authorized. The license holder remains responsible for the (financial) settlement of the obligations connected to the license.*

#### **Transfer of license**

*It is possible in principle to completely or partially transfer the license for use of frequencies (article 3.8 of the Telecommunications Law). The transfer of the license has the advantage that the future license holder can have the same rights as the current license holder. The license transfer can be requested with the "formulier" intrekken of overdragen van een vergunning".*
